- Buying and selling of your machinery
- New and second hand factory units
- Development of new concepts
- Upgrading of your factory
- Top consulting experts
- . To provide unmatched service & backup to customers.
- . To fill the gaps between Agents & Goods customer
- . To prevent YOUR down time!
- . To provide cost effective parts to keep your machine running.
- . To provide technical support wherever and whenever need.
- . To provide Job Study Reports
- . To provide Practical Training Courses

Number	Ref. #	Production Units	ex.-works-price	
300100	Ami/2000-1853	Marble processing plant (Italian Lira)	LIT	2.834.080.000
300200	Ami/2000-2055	Used earth moving and construction equipment	USD	subject to inquiry
300300	Ami/2000-2056	Various Used Cranes	USD	subject to inquiry
300400	Ami/2000-2058	Road heading Machine T1.30 (E 301)	DM	subject to inquiry
300500	Ami/2000-2059	Second Hand Truck Mounted Concrete Pumps	DM	subject to inquiry
300600	Ami/2000-2060	Second Hand Portable Concrete Pumps	DM	subject to inquiry
300700	Ami/2000-2061	Second Hand Mixer Pumps	DM	subject to inquiry
300800	Ami/2000-2117	Used Jumbo drilling equipment Atlas Copco	DM	subject to inquiry
300900	Ami/2000-2186	Used construction equipment	DM	subject to inquiry
301000	Ami/2000-2206	Two caterpillar loaders 960F & 966F (1994)	DM	489.480
301100	Ami/2000-2210	Used mobile crane equipment (11 units)	DM	subject to inquiry
301999	Ami/2002-2003	<ul style="list-style-type: none">• All types of trucks.• All types of loaders.• All types of front loaders.• All types of dumpers.• All types of mixers.• All types of batching plants.• Cement plant 5 Mio. to/year.• Tiles plant 10.000 sqm/day• Complete package For construction of dams.• Complete package For construction of high ways and autobahns.• Complete package For contraction of mines and tunnels.• Asphalt plants.• Asphalt re-cycling plants.• Complete line for pre-fabricated homes.• Complete line for low cost housing.• Complete line for production of windows (PVC).• Complete line for production of windows(Aluminum).• Complete line for production of doors(wood and Aluminum).• Production line for gypsum plates.• Production line for tiles..... 5 Mio. Sqm/year.• San-Lime production lines.• Brick manufacturing line.• Production line for splitting lines(burning above sintering point for hard surface).• Wall paper manufacturing line.• Cement production line.• Gypsum production line.• Marble production lines.• Marble tiles production lines.• Complete set for low cost housing manufacturing line.• Complete line for float gals production line.• Complete line for glass tiles.• Manufacturing line for doors(Aluminum, Wood, PVC).• Manufacturing line for windows(Aluminum, wood, PVC).		Inquire

We can Offer You:

- New and second hand production units.
- All technical and commercial services related to the units from dismantling up to the production.
- Development of new products.
- Upgrading of your production.
- Development of new concepts.
- Top consulting experts.
- Financial services.
- Special production units: Design, delivery.
- Technical training.
- Buying back of your existing second hand units.
- Mergers and equivocations

Following Construction Equipment is Available for Sale

For selling / offering your production lines to us, please telephone or send us the the below details:

For More Information

Please go to our main Home Page (Web address top right) for:

- Production units in 36 categories
- A Personal Letter to our visitors
- The facts and figures behind our company
- About our development ideology

TO: ALL VISITORS OF OUR HOMEPAGE

OUR IDEOLOGY FOR THE DEVELOPMENT

Dear Homepage Visitors,

We are offering you a very highly qualified development technology for your company. It is not only machines, that we offers for sale. We are offering you all related subjects:

- Coding.
- Technical training.
- Dismantling.
- Re-erection.
- Financing.

The UN and a lot of developed industrial countries would like to develop the world with credits and with production of debts for the Third World. We claim that these methods are old fashion methods, and the best strategy for enabling mankind is to enable them to help themselves. The second hand units are playing a very central role in this respect.

The best Credit we can give to the Third World is by enabling the Third World to help themselves. We especially request the UN and the World Bank to think about an immediate change of strategies. Offering and selling of the new production units to the man in Africa, Asia and Latein America, who has not one Penny in their pocket, will kill any development in those countries. UN and the World bank are causing debts and loans but not productivity. The modern economy of today makes a new strategy necessary.

We are offering through systematical thinking a complete range of the production units, which are bounded to each other:

- Sugar plant • Cube sugar plant • Animal food plant • Yeast plant • Alcohol plant.

Or in the Vegetable oil plants:

- Vegetable oil pressing • Vegetable oil Extraction • Super degumming • Vegetable oil refining • Vegetable oil bottling • Fractionation unit (eliminates the parts, which damage the heart out of oil) • Baby food plant (makes the basic function for the development fo a child possible.) • Lecithin plant • Protein plant • Animal food plant...

We ask all Dreamers and Spinners to stop the present strategy, which is the cause of Terror and poverty in the Third world. The lessons of the Terror-Attacks in the USA on September 11th, 2001 shall teach us soonest, that the UN, the World Bank and a lot of the Industrial countries are stepping in a wrong direction.

Artificial intelligence, dynamics of the Internet, global knowledge of all Internet users make an immediate change of the whole developing strategies necessary:

The real development and partnership with the Third World.

We are sure that most of the countries with Terrorist potentials will stop even to think about any terror attacks, if we have, let us say, 100 production units in those countries in the basic industrial fields (food, textile, medical,).

Specific suggestions in this regard are already given from us to the UN, The World Bank and most of the Industrial countries. The problem is that the responsible authorities do NOT even study this recommendations from the experts.

You are welcome to inquiry for specific projects by us and you will realize that we will try our Best for you.

Sincerely yours,
JUSTIN PATRICK, Senior Executive Manager

We have been specialising in the Support and Repair of all types of Earthmoving Machinery since 1992. We specialise in working and supplying a wide range of parts in many different environments like mines, construction, plant hire and scrap handling. We stock and repair a wide range of equipment and parts for:

- Hitachi
- Hyundai
- Doosan / Daewoo
- Komatsu
- Cat
- Sumitomo
- Case
- JCB Excavator
- Kawasaki

Although we are well trained and believe in only using HITACHI Excavators ourselves, we repair all makes of Machines for our customers & our hire fleet.

- We have been in operation since 1992
- Our customer base includes Agents and Dealers throughout the world.
- We have a Fully Itemised Computer Invoicing System so that Customers can see exactly what they are paying for.
- Word of mouth has been our best advertising.
- Every Customer is treated equally and fairly.
- We are available at any time for quotes or emergency repairs.
- Due to rapid company growth and our quest to improve our service and turn around times, we employed a dedicated sales representative dealing in spares, parts and personal attention to our customers needs.
- The CEO and Workshop Manager are both highly respected earth moving mechanics and between them have 30 plus years of experience.
- We aim to provide unmatched service and backup to our customer.

Some parts we specialise in include

- Filters for all makes of excavator.
- Pump parts for all makes of excavator.
- Undercarriage parts
- Excavator buckets and grabs
- We also supply parts for Travel motors, Swing motors, Center joints and Valve banks.
- We also supply service exchange pumps and cylinders to limit any down time of excavators.

Some services we deliver include

- Excavator Machine Hire
- Field service backup and repair
- Professional excavator service and repair
